Art Unit: 1652

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5 and 9, drawn to a monitor protein for measuring protein phosphorylation.

Group II, claim 6-8, drawn to DNA encoding the monitor protein, expression vector and host cell.

Group III, claim 10, drawn to a method for screening a kinase.

Group IV, claim 11, drawn to a method for screening a compound which stimulates or inhibits phosphorylation.

Group V, claim 12 drawn to a second method for screening a compound which stimulates or inhibits phosphorylation.

Although the technical feature of Groups I-V is a monitor protein for measuring protein phosphorylation, this technical feature is not a special technical feature, because it is not a contribution over the prior art as required by PCT Rule 13.1. A protein for measuring protein phosphorylations is taught, for example, by the US patent 5,491,084.

Art Unit: 1652

Furthermore, although all Groups III-V use the same product that is monitor protein, 37 CFR 1.475 does not provide for multiple products or methods within single application, therefore, unity of invention is lacking with regard to Group I-III.

For the reason indicated above the restriction is proper. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Malgorzata A. Walicka, Ph.D., whose telephone number is (703) 305-7270. The examiner can normally be reached Monday-Friday from 10:00 a.m. to 4:30 p.m.

If attempts to reach examiner by telephone are unsuccessful, the examiner's supervisor, Ponnathapura Achutamurthy, Ph.D. can be reached on (703) 308-3804. The fax number for this Group is (703) 305-3014.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionists whose telephone number is (703) 308-0196.
